SUMMARY

I am a passionate Full Stack Web Developer with experience in building and maintaining websites. I am currently pursuing a Bachelor's degree in Computer Application (BCA) from Mahatma Gandhi Kashi Vidyapith University while working in a corporate IT company. I specialize in WordPress website development, custom plugin creation, theme customization, and API integration using JavaScript. I am also skilled in modern JavaScript frameworks like React.js and Node.js. Currently, I am developing e-commerce and portfolio websites to further enhance my skills and gain practical experience.

Outside of coding, I enjoy bike riding and exploring new places. My dream is to become a successful entrepreneur who creates valuable solutions that help people and contribute to the progress of my country.

WORK EXPERIENCE

FULL STACK WEB DEVELOPER

Mar 2022 - June 2023

- Developed, customized, and maintained WordPress websites for clients, including both corporate and eCommerce platforms.
 - Collaborated with cross-functional teams to design responsive, user-friendly websites that improved client engagement and user experience.
 - Designed and built custom WordPress plugins to extend the functionality of websites, such as creating unique post types, custom fields, and integrating third-party services (payment gateways, social media).
 - Developed custom WordPress themes from scratch to provide clients with tailored designs and unique branding solutions.
 - Utilized WordPress theme hooks and custom templates to match client needs for flexibility and ease of content management.
 - Developed and implemented RESTful API calls using JavaScript (Fetch API, AJAX) for seamless data communication between WordPress sites and external services.
 - Worked closely with the company's CRM system built on CodeIgniter, managing data flow between WordPress sites and the CRM.
-
